

## Features

Ready to use DIY pre-mixed high quality concrete material, all care taken—only water is to be added. Be assured of excellent setting and demoulding time and exceptional finish, characteristics much superior to regular concrete.

### Key features include:

High Strength

High durability | Low maintenance cost

Lower Dimensional Shrinkage

Fewer cracks in concrete

High Workability

Fast completion of project

Water Repellence

Moisture ingress & stain protection

Low Requirement of Curing

Less supervision required at site

Peace of Mind

More value for money

Efflorescence Resistance

Better looks | Low maintenance cost

High Consistency of Material

Peace of mind

Extensively Tested at Factory

Quality assured

## Application

- Home articles
- Planters, Table tops, Kitchen sink
- Small repair works

- Articles can be polished or subjected to secondary treatment

## Appearance

Dry concrete mix with aggregates

## Specifications

Max. Aggregate Size	Compressive Strength
10 mm	>35 N/mm <sup>2</sup>
Flexure Strength	Bulk Density
>6.5 N/mm <sup>2</sup>	~1450 kg/m <sup>3</sup>
Wet Density	Water Requirement
~2200 kg/m <sup>3</sup>	12-13% of weight

## Work Time

15 minutes—Make only as much quantity as you expect to use up in 15 minutes. Higher temperatures above 32°C or wind over 8km/hr can cause faster setting.

## Application/Installation Method

Please refer to separate sheet for guidance on application method.

## Curing

No curing is required. Casted article may be lightly covered for about 2-3 hours to prevent quick drying out.

## Grinding/Other Finish

All type of secondary finishes like grinding, polish, impregnation, sealing, shotblasting, brushing, antiquing etc., are possible on the articles casted.

## Packing

25 kg bag

**Shelf Life**

Minimum 3 months from date of packing before opening. Use within few hours of opening. Store in dry conditions.

**Precautions**

Should be stored away from water. Use materials from different packs to reduce chance of any shade variation.

Keep WC ratio and curing conditions consistent to reduce chances of shade variation.

**Technical Support**

**Disclaimer**

Any recommendations for application techniques are based on experiences. It is advisable to adapt processing techniques and material quantities to the given local conditions and we refer in this context to our general terms of sale and delivery. Hairline crack formation or deformation by shrinkage on principle cannot be excluded with the offered system and thus are not considered as technical defect. Coloured products are exclusively produced from natural raw materials. Thus, colour deviations cannot be excluded. The printed colour may deviate from the original colour shade. Test areas are strongly recommended before usage/execution in larger areas.

**Health Precautions**

This product contains cement and has an alkaline reaction with moisture/water. Adequately protect hands and eyes. In case of contact with eyes consult doctor immediately.
